BRAIN RESEARCH BULLETIN

VOLUME 14 NUMBER 1 JANUARY 1985

CONTENTS

Articles

Temporal relationships of latency and magnitudes of *Limulus* ventral photoreceptor potentials elicited by two light pulses.
WULFF, V. J., M. E. BEHRENS, W. J. MUELLER and J. L. FAHY 1

Kindling in the amygdala and susceptibility to stress ulcers.
HENKE, P. G. and R. M. SULLIVAN 5

Enhanced acetylcholinesterase staining in hippocampal area CA3 after lesion of granule cells by infusion of colchicine
DRUST, E. G. and I. L. CRAWFORD 9

Postnatal development of serotonin in adrenal medullary cells.
HOLZWARTH, M. A. and C. SAWETAWAN 15

The identification of brainstem neurones projecting to thoracic respiratory motoneurones in the cat as demonstrated by retrograde transport of HRP.
RIKARD-BELL, G. C., E. K. BYSTRZYCKA and B. S. NAIL 25

Cells of origin to corticospinal projections to phrenic and thoracic respiratory motoneurones in the cat as shown by retrograde transport of HRP.
RIKARD-BELL, G. C., E. K. BYSTRZYCKA and B. S. NAIL 39

Neurochemical studies of the nucleus of the solitary tract, dorsal motor nucleus of the vagus and the hypoglossal nucleus in rat: Topographical distribution of glutamate uptake, GABA uptake and glutamic acid decarboxylase activity.
SIMON, J. R., S. K. DiMICCO and M. H. APRISON 49

Efferents from the supracommissural ventral telencephalon in the hime salmon (landlocked red salmon, *Oncorhynchus nerka*): An anterograde degeneration study.
SHIGA, T., Y. OKA, M. SATOU, N. OKUMOTO and K. UEDA 55

Cholinergic systems in the rat brain: II. Projections to the interpeduncular nucleus.
WOOLF, N. J. and L. L. BUTCHER 63

Effect of Δ^9-THC on brain and plasma catecholamine levels as measured by HPLC.
PATEL, V., M. BORYSENKO and M. S. A. KUMAR 85

GM1 ganglioside does not stimulate reinnervation of the striatum by substantia nigra grafts.
FREED, W. J. 91

Innervation of the posterior fossa dura of the cat.
KELLER, J. T., M. C. SAUNDERS, A. BEDUK and J. G. JOLLIS 97

Brief Communication

Driven shield for multi-barrel electrode.
YAMAMOTO, T., Y. OOMURA, H. NISHINO, S. AOU and Y. NAKANO ... 103

Contents continued

Laboratory Instrumentation and Computing

A simple interface emancipates your computer from interspike interval duration measurement primitives.
SCHMID, K. 105

Announcements 107

BRAIN RESEARCH BULLETIN

VOLUME 14 NUMBER 2 FEBRUARY 1985

CONTENTS

Articles

The effect of intraseptally applied vasopressin on thermoregulation in the rat.
BANET, M. and U.-E. WIELAND 113

Regional sensitivity of neuroleptic receptors to sub-acute soman intoxication.
VALDES, J. J., N. A. CHESTER and D. MENKING, T.-M. SHIH and C. WHALLEY 117

Extranuclear axon collaterals of paraventricular neurons in the rat hypothalamus: Intracellular staining, immunocytochemistry and electrophysiology.
HATTON, G. I., P. COBBETT and A. K. SALM 123

Immunological study of the rat hypothalamic ventromedial nucleus.
OOMURA, Y., T. ONO and M. SUGIMORI 133

A light microscopic HRP study of limbic projections to the vasopressin-containing nuclear groups of the hypothalamus.
OLDFIELD, B. J. and A.-J. SILVERMAN 143

Early postnatal development of basolateral amygdala in kitten: A golgi morphometric analysis.
WAKEFIELD, C. L. and M. S. LEVINE 159

Muscarinic cholinergic receptors in area postrema and brainstem areas regulating emesis.
PEDIGO, N. W., JR. and K. R. BRIZZEE 169

Origin of cholinergic nerves to the rat major cerebral arteries: Coexistence with vasoactive intestinal polypeptide.
HARA, H., G. S. HAMILL and D. M. JACOBOWITZ 179

Heterogeneity of brain benzodiazepine receptors: Effects of physiological conditions.
LIPPA, A. S., K. M. GARRETT, B. TABAKOFF, B. BEER, L. P. WENNOGLE and L. R. MEYERSON 189

Brief Communication

A simple perfusion system for brain slice electrophysiology.
OGATA, N. and M. INOUE 197

Announcements 199

BRAIN RESEARCH BULLETIN

VOLUME 14 NUMBER 3 MARCH 1985

CONTENTS

Editorial v

Articles

Neural mechanisms distinguishing the neocortical EEG of C57BL/6 mice from that of DBA/2 mice.
RYAN, L. J. 205

Ionophoretic application of angiotensin II, vasopressin and oxytocin the the region of the anterior hypothalamus of the rat.
THORNTON, S. N., A. JEULIN, R. DE BEAUREPAIRE and S. NICOLAIDIS 211

Forebrain structures regulating flight behavior in the cat.
SHAIKH, M. B., M. BRUTUS, H. E. SIEGEL and A. SIEGEL 217

Thalamic negativity associated with the endogenous late positive component of cerebral evoked potentials (P300): Recordings using discriminative aversive conditioning in humans and cats.
KATAYAMA, Y., T. TSUKIYAMA and T. TSUBOKAWA 223

Caudal ventrolateral medulla can alter vasopressin and arterial pressure.
SVED, A. F., W. W. BLESSING and D. J. REIS 227

Unilateral odor deprivation. Time course of changes in laminar volume.
BRUNJES, P. C. 233

Morphine and specific changes in the sensitivity of noradrenergic receptors within the "limbic" part of the feline caudate nucleus: A behaviour study.
COOLS, A. R. 239

Effects of enkephalin and morphine on rat globus pallidus neurons.
FREY, J. M. and R. D. HUFFMAN 251

Afferent and efferent connections of the medial preoptic area in the rat: A WGA-HRP study.
CHIBA, T. and Y. MURATA 261

Stimulus-response relation of tooth pulp units in rat trigeminal nucleus.
IKEDA, N., S. YAMADA, K. EGUCHI and T. SATOH 273

Rapid Communication

Stabilization of TMB reaction product for electron microscopic retrograde and anterograde fiber tracing.
LEMANN, W., C. B. SAPER, D. B. RYE and B. H. WAINER 277

Announcements 283

BRAIN RESEARCH BULLETIN

VOLUME 14 NUMBER 4 APRIL 1985

CONTENTS

Editorial v

Articles

Local cerebral metabolic effects induced by nigral stimulation following ventromedial thalamic lesions. II: Sensory motor, reticular and limbic systems.
SAVAKI, H. E., J. A. GIRAULT, M. DESBAN, J. GLOWINSKI and and M. J. BESSON 287

Blockade of adrenal compensatory hypertrophy by unilateral hypothalamic lesions.
MARUBAYASHI, U., J. ANTUNES-RODRIGUES and S. M. McCANN. 297

Effects of guanyl nucleotides and ions on kappa opioid binding.
MACK, K. J., M. F. LEE and J. A. WEYHENMEYER 301

Neuronal responses in subfornical organ and other regions to angiotensin II applied by various routes.
ISHIBASHI, S., Y. OOMURA, B. GUEGUEN and S. NICOLAIDIS 307

Behavioral effects of hippocampal system lesions on rats in operant paradigm.
SHULL, R. N. and F. A. HOLLOWAY 315

Sex and strain differences in morphine-induced temperature effects in WKYs and SHRs.
QUOCK, R. M., L. K. VAUGHN, J. BARLAMENT and J. A. WOJCECHOWSKYJ 323

Effects of massive doses of α-MSH on thermoregulation in the rabbit.
HOLDEMAN, M. and J. M. LIPTON 327

Electrophysiological characteristics of amygdaloid central nucleus neurons in the awake rabbit.
PASCOE, J. P. and B. S. KAPP 331

Direct evidence for enhanced axon sprouting in adult rats exposed to ethanol *in utero*.
DEWEY, S. L. and J. R. WEST 339

A histological atlas of the macaque *(Macaca mulatta)* substantia nigra in ventricular coordinates.
FRANCOIS, C., G. PERCHERON, J. YELNIK and S. HEYNER 349

Calcium influx accompanies but does not cause excitotoxin-induced neuronal necrosis in retina.
PRICE, M. T., J. W. OLNEY, L. SAMSON and J. LABRUYERE 369

The development of the relationship between dorsal root afferents and motoneurons in the larval bullfrog spinal cord.
LIUZZI, F. J., M. S. BEATTIE and J. C. BRESNAHAN 377

Announcements 393

BRAIN RESEARCH BULLETIN

VOLUME 14 NUMBER 5 MAY 1985

CONTENTS

Editorial v

Articles

Effects of neonatal methylmercury exposure on development of nucleic acids and proteins in rat brain: Regional specificity.
SLOTKIN, T. A., S. PACHMAN, R. J. KAVLOCK and J. BARTOLOME 397

Effects of neural stimuli on paraventricular nucleus neurones.
SAPHIER, D. and S. FELDMAN 401

Characterization of angiotensin II binding sites on neuroblastoma×glioma hybrid cells.
WEYHENMEYER, J. A. and C.-J. HWANG 409

Light and electron microscopic analysis of insulin binding sites on neurons in dissociated brain cell cultures.
WEYHENMEYER, J. A., A. M. REINER, I. REYNOLDS and A. KILLIAN .. 415

Dissociation of subjective report and pain-related late positive components of cerebral evoked potentials in subjects with brain lesions.
KATAYAMA, Y., T. TSUBOKAWA, S. HARANO and T. TSUKIYAMA 423

Paraventricular nucleus lesions exaggerate dietary obesity but block photoperiod-induced weight gains and suspension of estrous cyclicity in Syrian hamsters.
BARTNESS, T. J., E. L. BITTMAN and G. N. WADE 427

Endogenous sugar acid control of hypothalamic neuron activity and gastric acid secretion in rats.
SHIRAISHI, T., M. KAWASHIMA and Y. OOMURA 431

Effects of 250 mg% ethanol on monoamine and amino acid release from rat striatal slices.
MURPHY, J. M., S. D. CUNNINGHAM and W. J. McBRIDE 439

Axonal branching of canine sympathetic postganglionic cardiopulmonary neurons. A retrograde fluorescent labeling study.
TOMNEY, P. A., D. A. HOPKINS and J. A. ARMOUR 443

Transnuclear transport and axon collateral projections of the mamillary nuclei in the rat.
TAKEUCHI, Y., G. V. ALLEN and D. A. HOPKINS 453

Rapid Communications

Isolation of glomeruli from areas of bovine cerebellum and comparison of [^{3}H]serotonin uptake.
TERRIAN, D. M., W. I. BUTCHER, P. H. WU and D. L. ARMSTRONG 469

New "micro push-pull" catheter system for localized perfusion of diminutive structures in brain.
MYERS, R. D. and L. GURLEY-ORKIN 477

Contents continued

Ventral tegmental area of the rabbit brain: A developmental Golgi study.
KLINE, S. and D. L. FELTEN 485

Brief Communication

The noradrenergic neurotoxins DSP4 and xylamine bind to opiate receptors.
WILKINSON, M., W. JACOBSON and D. A. WILKINSON 493

Announcements 497

BRAIN RESEARCH BULLETIN

VOLUME 14 NUMBER 6 JUNE 1985

CONTENTS

Editorial v

Preface 503

Overview

Autonomic and endocrine factors in the regulation of food intake.
BRAY, G. A. 505

Neuropeptides

Peptides as central regulators of feeding.
MORELY, J. E., A. S. LEVINE, B. A. GOSNELL and D. D. KRAHN 511

Feeding and drinking elicited by central injection of neuropeptide Y: Evidence for a hypothalamic site of action.
STANELY, B. G., A. S. CHIN and S. F. LEIBOWITZ 521

Integrative peptides.
HOEBEL, B. G. 525

Sham feeding, flavor associations and diet self-selection as indicators of feeding satiety or aversive effects of peptide hormones.
VANDERWEELE, D. A., R. L. OETTING, R. E. JONES and D. A. DEEMS 529

Localization

Ventromedial and dorsomedial hypothalamic syndromes in the weanling rat: Is the "center" concept really outmoded?
BERNARDIS, L. L. 537

Comparison of the metabolic and behavioral disturbances following paraventricular- and ventromedial-hypothalamic lesions.
WEINGARTEN, H. P., P. CHANG and T. J. McDONALD 551

Noradrenergic innervation of the paraventricular nucleus: Specific role in control of carbohydrate ingestion.
LEIBOWITZ, S. F., G. F. WEISS, F. YEE and J. B. TRETTER 561

On the role of the mouth and gut in the control of saccharin and sugar intake: A reexamination of the sham-feeding preparation.
SCLAFANI, A. and J. W. NISSENBAUM 569

Energy

Brown fat thermogenesis and its role in the development of obesity.
MOORE, B. J., B. A. HORWITZ and J. S. STERN 577

Contents continued

Impaired diet-induced thermogenesis in brown adipose tissue from rats made obese with parasagittal hypothalamic knife-cuts.
COSCINA, D. V., J. W. CHAMBERS, I. PARK, S. HOGAN and J. HIMMS-HAGEN 585

Internal signals cause large changes in food intake in one-way crossed intestines rats.
KOOPMANS, H. S. 595

On-line continuous measurement of blood glucose and meal pattern in free-feeding rats: The role of glucose in meal initiation.
CAMPFIELD, L. A., P. BRANDON and F. J. SMITH 605

Metabolic and neurochemical correlates of glucoprivic feeding.
ROWLAND, N. E., L. L. BELLUSH and J. CARLTON 617

Nutritional influences on dietary selection patterns of obese and lean Zucker rats.
T. W. CASTONGUAY, N. E. ROWLAND and J. S. STERN 625

Patterns of hyperphagia in the Zucker obese rat: A role for fat cell size and number?
VASSELLI, J. R. 633

Serotonergic modulation of the feeding behavior of the medicinal leech.
LENT, C. M. 643

Opiates

Naltrexone and human eating behavior: A dose-ranging inpatient trial in moderately obese men.
MAGGIO, C. A., E. PRESTA, E. F. BRACCO, J. R. VASSELLI, H. R. KISSILEFF, D. N. PFOHL and S. A. HASHIM 657

Opioids and consummatory behavior.
LEVINE, A. S., J. E. MORLEY, B. A. GOSNELL, C. J. BILLINGTON and T. J. BARTNESS 663

Sugar, opioids and binge eating.
FULLERTON, D. T., C. J. GETTO, W. J. SWIFT and I. H. CARLSON 673

Opioid systems and feeding in the slug, *Limax maximus:* Similarities to and implications for mammalian feeding.
KAVALIERS, M., M. HIRST and G. C. TESKEY 681

Integration

Visceral factors in the control of food intake.
STRICKER, E. M. and M. J. McCANN 687

Satiety: An ecological perspective.
COLLIER, G. H. 693

Index to Volume 14 701

Announcements 717
